Build[™]

Tables and Desks

Create More. Connect More. Build More.

Learning Without Boundaries

Learning is no longer bound to the classroom, it happens everywhere. Inspiring the next generation takes a higher degree of mobility. Build is a lightweight, mobile collection of tables and student desks featuring interchangeable shapes that can be arranged in a variety of creative ways. Form the perfect place for a study group. Support collaboration and social interaction. Create personal space for focused study time. The future of education takes shape with Build.

Tables

Pick A Space. Then Gather Around.

Projects. Hands on Activities. Cram sessions. Today's student body is learning together, working in groups and interacting like never before. Build a better sense of community by giving everyone a seat at the table. Group them together to form clusters, serpentine rows, collaborative configurations or all of the above. It's the ultimate multiple choice answer for today's ever evolving active learning spaces.

Student Desks

The Shape of Things to Come

Brainstorming. Attentive listening. Idea sharing. Learning comes in many forms, and your classroom needs the flexibility to support them all. Build student desks are designed with unique top shapes that allow them to adapt to changing needs throughout the day. With countless combinations, you can choose the right shape, size and finish to fit any space, aesthetic and budget.

Learning in The Workplace

Shown with Motivate® Seating

Whatever the Task. Wherever the Setting.

From open areas and training rooms to collaborative spaces between, Build meets your needs on your terms. Looking for a short-term parking outside the workstation? No problem. Training a group of new employees? Just say when. Build gives you total control over your environment, from the table configurations to the way they express your brand and style.

COMMONS

A one-on-one meeting. Followed by a group discussion. Then a quick conversation over lunch. Active areas do it all, as long as the spaces are designed to keep up.

BREAKOUT

Sometimes you just have to break away. Position Build tables near desks to give workstation warriors a convenient retreat, informal meeting spot or change-of-pace work area.

TRAINING

From small to large group instruction, every training session is supported by Build. Each lightweight, mobile table can be easily repositioned and reconfigured to fit any need.
