

A modern classroom setting featuring curved wooden tables and orange chairs. A laptop is open on one of the tables, and an open book lies on another. In the background, there is a whiteboard with colorful diagrams, a large black screen, and a bookshelf. The room is bright and spacious, with large windows on the left.

Education's Next Chapter

Thanks to a variety of new learning methods, the broad adoption of classroom technology, and blended learning styles, exciting things are happening in education! Now's the time to support teachers and students with environments that encourage collaboration, flexibility and mobility—keeping minds and bodies engaged throughout the day.

At HON, we're committed to supporting educators with the tools, furniture and resources they need to get the most out of any learning space, regardless of footprint. Let's make your classroom fun, welcoming and inspiring!

Trends in K-12 Education

As an educator, you help shape the future. Yet as the world evolves, it's impossible to predict just what that future will look like. What we do know is that education is changing fast, from how and where we approach it to what we expect from it. Another truth: physical spaces have a profound impact on the efficacy of teaching and learning.

At HON, we're contributing to the future of learning through space and furniture design. To support you with the smartest, most effective (and fun!) tools, we've done our homework and uncovered five major trends that have one thing in common: they unleash creativity in learners.

NANO LESSONS
The attention span struggle is real. Teachers now present bite-size content, known as Nano Lessons, more frequently throughout the day. Nano Lessons are 90 seconds to 5 minutes long, with clear and concise information that's easier to absorb quickly.*

PERSONALIZED LEARNING
By creating more personalized experiences, teachers can support students as they learn at their own pace, leading to better outcomes for everyone. Personalized Learning measures comprehension throughout lessons, eliminating reliance on big tests at the conclusion of a course.

CONNECTED LEARNING
Connected Learning reflects the growing use of technology in the classroom via desktop and laptop, AR/VR activities and "M-learning" using mobile devices. Through a mix of teacher-led instruction and self-directed learning, students learn the safe, appropriate use of technology.

EXPLORATION STATIONS
Using creativity and hands-on activities, Exploration Stations reinforce lessons by appealing to students' natural curiosity. Students work on personal projects of their choice, which helps improve independent thinking skills, process-based problem solving and visual communication.

Each of these emerging trends requires unique furniture and spaces. HON has a wide variety of solutions that will help your school deliver on the promise of each one.

* Research collected from multiple sources, including Public School Review, chalk.com, edCircuit, Educause Review, EdTech Magazine, Journal of Information Technology Education, scholastic.com, Time Magazine and Queens University of Charlotte.

COLLABORATIVE LEARNING
Collaborative Learning—students working face to face, in teams or small groups—can counteract some of the effects technology use has on interpersonal skills. It encourages students to develop soft skills, provides leadership opportunities and helps integrate the arts into STEM curriculums.

Classroom

What's the most important place in your school? The classroom, hands down (or hands up!). To support the emerging trends in education, making sure yours are set up for student and teacher success is critical. With furniture that's durable, configurable and fun, you'll be ready to ignite the spark that will give your students the best opportunities to succeed—and enjoy learning—every day.

GRADES K-4

Activity Hubs

Kids thrive in classrooms that allow for movement, and those classrooms are powered by flexible furniture. Settings that can be rearranged easily foster collaboration and connection, while keeping active minds and bodies engaged.

SEATING AT EVERY SIZE

SmartLink Seating progresses with learners as they grow, from kindergarten through high school! Extra credit: SmartLink chairs stack up to 5 high for easy storage.

GRADES 5 - 8

Collaborative & Flexible

Whether students are working together or individually, their classroom needs furniture that quickly and easily supports both. That's why flexibility is an upgrade desired by 63% of teachers.*

SMARTLINK STORAGE

Turn “Traditional” Upside Down

Flip the classroom on its head (figuratively speaking!). With a Makerspace, students take ideas and concepts and get hands-on with learning that involves everyone. It’s an in-motion experience made even better with Exploration Stations that give students the freedom to pursue what excites them.

SMARTLINK STORAGE

SmartLink is your do-it-all, make-it-fun-for-everyone classroom solution. Hardy, easy-to-clean plastic tubs in multiple sizes store paper, crafts, supplies and tools and can be transported quickly from place to place. **Cool fact: they can be used with Build Makerspace Tables, too.**

STORAGE SOLUTIONS

Our storage is a quick study! Support any teaching style by stocking everything kids need to learn through doing in tough, mobile cabinets that lock for security.

ADD A POP OF COLOR

We love colors, and students do too. Take your pick of the shades below for your SmartLink Storage Cabinets.

Social Spaces

Learning happens everywhere!
Big ideas and bold dreams?
Let's make room for them.
Beyond teacher-led instruction,
it's important to provide a
variety of spaces that foster
discovery and collaboration.

The color scheme is fantastic!
Contrasting hues of navy blue and
light green welcome our patrons
and stimulate creative learning.
HON's tables and chairs are visually
appealing and conducive to
different learners.

Purposeful & Functional

Picture this: students enter the room and see furniture that makes them go “oooooh....” That’s Tangram. It’s reliable, inviting and, most of all, comfortable! Students can work together or individually, or hang out and socialize. You’ll cover all the bases.

Take a seat (may we suggest our Motivate chairs?), get together... maybe make a new friend! Social spaces are great for developing soft skills by solving problems or simply being creative. Your students will love them.

PULL UP A CHAIR

Motivate seating is designed with advanced contours to move with the body, reducing pressure points for more comfort. Plus, the chairs stack neatly to make room for other activities.

Get Together, Work Together

Say goodbye to rigid, uncomfortable classroom furniture. Comfort helps keep students engaged, and our solutions are supportive and durable—no matter how long they're seated.

Featured Product: Skip™

Featured Product: Flock® Mini Cylinder with Active Base

Flexibility & Fluidity

When we talk about “in-between spaces,” we’re thinking of spaces that empower choice and curiosity. Want to work together? No problem. Studying solo? Got that covered, too. Comfortable, easily cleaned tables and collaborative seating put students in control.

EVERYONE GETS A SEAT

From Skip active chairs to Flock seating, there’s an easy, mobile solution for any situation. Students can create their own arrangements to work together—or sit solo to get into the “zone.”

Connect & Grow

We live in a digital, connected world—and students want to use technology to scratch that curious itch and discover new things. Connected Learning spaces are critical, and for them, you’ll need furniture that’s comfortable, welcoming and forward-thinking.

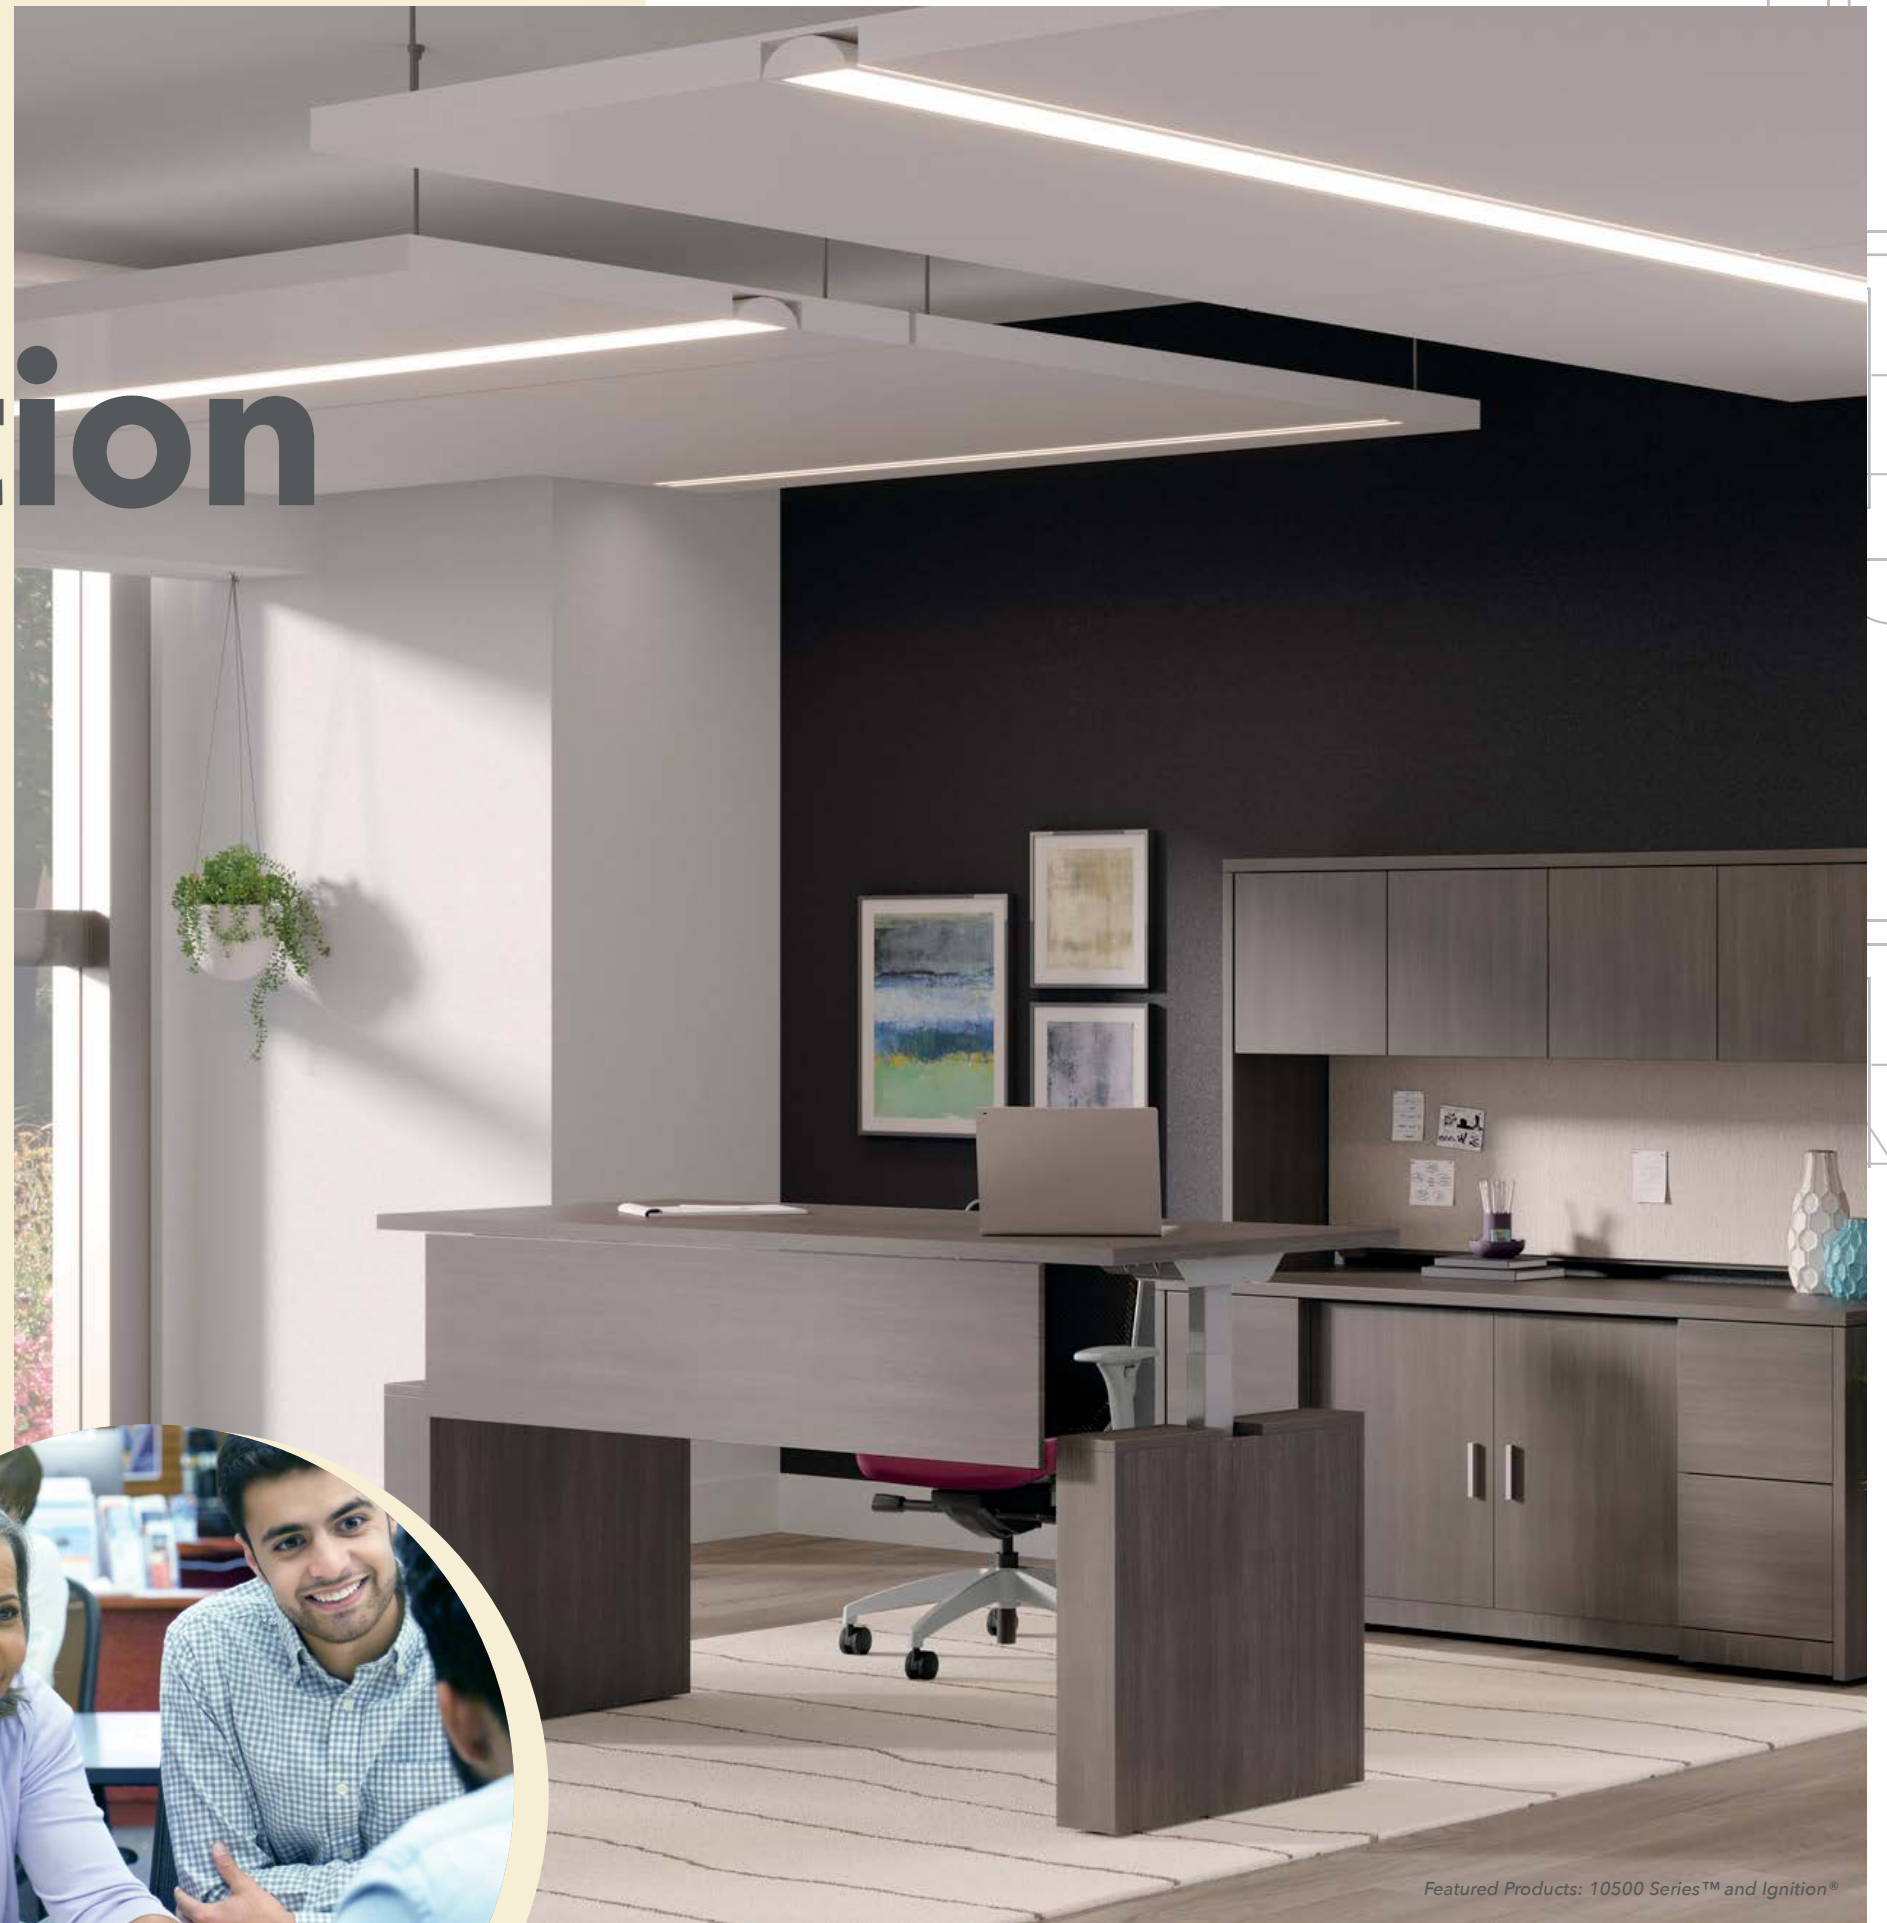

Featured Product: Tangram™

Administration

What can thoughtful design do for you? The answer is...a lot! A carefully planned space creates a welcoming environment for students and parents—and it makes room for school staff to carry out the day-to-day business of helping each student be successful.

We loved working with HON because of the outstanding products, reliable customer service and amazing warranty that they offered.

BEST-IN-CLASS VALUE

The 10500 desk series from HON excels at the fundamentals. With sizes, shapes and storage solutions for any school footprint, it's a premium-quality classic at an affordable price.

Hello & Welcome

The administrative offices are the hub of your school, and the first place you welcome parents and families of students. We'll help you create a warm, inviting space for them, along with plenty of devoted work zones for staff with intelligent, timeless and built-to-last furniture.

MEETING SPOT

There's nothing you can't do when you work together. Solve problems, find solutions and interact in a comfortable, engaging setting with Flock seating from HON.

Featured Products: Concinnity™ and Ignition® 2.0

THE MVP: IGNITION

A comfortable chair might be your best teammate throughout long days. With Ignition, you'll have total customization at your fingertips and a color palette that brings energy to your space.

Admin All-Stars

Hard, but rewarding. That's every day to an educator, and we know principals and vice principals face some of the toughest tasks within a school. Our desk, storage and seating solutions are crafted with integrity and smart features like locking drawers and cord corrals and designed with style...that won't feel dated, even years from now.

Featured Products: 10500 Series™ and Ignition® 2.0

10500 SERIES

Designed for Daily Demands

With seated and standing height workstations, the 10500 Series supports multiple postures and workstyles, plus it encourages healthy movement—a must for those busy, unpredictable days at school.

10500 Series

SOMETHING FOR EVERYONE

Get more of what you need, for less than you expected! Not too big and not too small, the 10500 Series is just right, with a comprehensive offering that supports all the ways people work. Maximize your admin space with single desks, L-shaped and U-shaped configurations, workwall arrangements and modular storage solutions.

Featured Products

Limitless potential is the hallmark of a great classroom. We believe in empowering the big thinkers and leaders of tomorrow, and it starts with furniture that makes your space the best it can be. With our comprehensive offering built for active and engaged learning (and crafted for quality and durability), there's nothing you and your students can't accomplish.

“The LVUC has been one of the biggest changes in the history of our campus. We are very pleased with the service, expertise, quality and value HON provided throughout the project.

**PRESIDENT MONSIGNOR
JAMES SHEA**
